### ***a) Project Description***

OneLASRGUI is a software system designed to accept requests from customers for Unbundled Network Elements (UNEs) and Resale Services then manage the information required to fulfill those requests, converting end users from SWBT service to the ordering Local Service Provider. LASR is based on the Ordering and Billing Forum (OBF), Local Service Ordering Guideline (LSOG), and Local Service Ordering Requirements (LSOR). Through a graphical user interface (GUI), Local Service Centers can view and manage the requests that flow through LASR. This manual explains the functions that Local Service Centers can perform through LASR GUI. LASR is part of our Operational Support Systems (OSSs).
